

Alice Chen

Senior Machine Learning Engineer

San Francisco, CA — alice.chen@email.com — [linkedin.com/in/alicechen-ml](https://www.linkedin.com/in/alicechen-ml) — github.com/alice-ml-dev

SUMMARY

Results-driven Machine Learning Engineer with 4+ years of experience designing, training, and deploying scalable deep learning models. Proven expertise in PyTorch and AWS, bridging the gap between raw data and production-grade AI systems.

TECHNICAL SKILLS

- **Languages:** Python, SQL, C++, Bash
- **Frameworks & Libraries:** PyTorch, TensorFlow, Scikit-Learn, LangChain, Hugging Face
- **Infrastructure & Cloud:** AWS (SageMaker, EC2, S3), Docker, Kubernetes, MLflow, CI/CD

PROFESSIONAL EXPERIENCE

DataTech Solutions

San Francisco, CA

Senior Machine Learning Engineer

2022 – Present

- Architected and deployed a real-time recommendation engine using PyTorch, increasing user engagement by 22%.
- Optimized inference latency of large language models (LLMs) by 40% through quantization and TensorRT deployment.
- Built automated CI/CD pipelines for model retraining using AWS SageMaker and GitHub Actions.

FinServe Analytics

New York, NY

Data Scientist

2020 – 2022

- Developed predictive churn models using XGBoost, saving an estimated \$1.2M in retained annual recurring revenue.
- Engineered scalable ETL pipelines processing 50GB+ of daily transaction data using Apache Spark.

EDUCATION

M.S. in Computer Science (Specialization in Artificial Intelligence)

2018 – 2020

Stanford University, Stanford, CA
