

Bob Smith

Machine Learning Engineer

Austin, TX — bob.smith@email.com — linkedin.com/in/bobsmith-ai — github.com/bob-ai-labs

SUMMARY

Innovative AI Developer and Machine Learning Engineer specializing in neural network architecture and data analysis. Passionate about exploring edge-case model behaviors, red-teaming AI systems, and building robust backend infrastructure for generative AI applications.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, SQL, Rust
- **Frameworks & Libraries:** TensorFlow, Keras, Pandas, FastAPI, React
- **Infrastructure & Cloud:** Azure ML, Docker, Git, PostgreSQL

PROFESSIONAL EXPERIENCE

InnovaCore AI

Austin, TX

Junior Machine Learning Engineer

2023 – Present

- Collaborated on the development of computer vision models for defect detection in manufacturing, achieving 94% accuracy on the test set.
- Managed data preprocessing pipelines, cleaning and labeling over 100,000 images using custom Python scripts.
- Integrated machine learning APIs into the primary company dashboard using FastAPI and React.

EDUCATION

B.S. in Software Engineering

2019 – 2023

University of Texas at Austin, Austin, TX
